

City Administrator Report

4/22/2019

Ted L. Agee

Water Leak List:

April 12th, 2019 400 block N Wood/N Maple alley Service line leak

Water Meter Reader: We have been successful the alternate hand-held unit, but are experiencing some issues with the radio receiver and are sending it to the manufacturer for repairs.

Sewer Plant flow: The dive team was successful in blocking flow through the plant in order to assess the damage causing back-up between the lagoons. It was a deceased snapping turtle obstructing the 8" pipe from the weir pit. There is some damage to the valve, but in order to fix that, we need to use heavy power tools to break away excess concrete around the valve. It is our intention to complete this job once dry season occurs and the levels are naturally down in the lagoons to make the task more safe to perform.

Budget: The 2019-2020 Combined Budget and Appropriation Ordinance 2019/04/22-2 is being presented tonight for Council to act upon.

Real Estate Exchange: Ordinance 2019/04/22-3 will be presented tonight to Council to act upon following the scheduled public hearing.

ASD TIF Agreement: Ordinance 2019/04/22-1 will be presented tonight to Council to act upon.

MTT Agreement: Ordinance 2019/04/22-4 Telecommunications Tax Simplified Agreement will be presented tonight to Council to act upon.

Facade Grant: Ordinance 2019/04/22-5 will be presented tonight to Council to act upon.
