

**CITY OF MAROA TOWN HALL MEETING MINUTES
NOVEMBER 4, 2019 AT 7 PM**

Meador states that there was a miscommunication regarding the time of the meeting to start. This meeting is to find out how the City feels about the sale of recreational marijuana. The council would like to make an informed decision about this and not what we want as an individual.

Wilkey states that we are wanting to find out if we want to sale marijuana in the City, it is going to be here so do we want to take advantage of the revenue from the sales. Regardless it is legal now, so it is going to be here. There are major infrastructure projects coming up that total over \$1.5 million and this revenue will help and if we can't raise the funds there potentially there is a tax hike that would happen to pay for the projects.

Meador states that we are an agricultural town and it could be grown here so he would like to know if that is something that you would be interested in as well.
